AT&T Communication Manager Installation

Please Read:

This is a customized version of the AT&T's Communication Manager Client for the Microsoft Windows Operating Systems. This client release has been built with specific installation requirements, and uses the following command-line parameters when installing.

The install will take 3-5 minutes.

Note: Elevated Administrator privileges must be used to install

Customization Included in file:

- Byte Acceleration Client is not installed
- Client will Auto Start minimized upon a system boot up

The Setup.exe file is an un-compressed installation package. Standard installation switches can be used to install the client.

To install silently with an install log use:

Setup.exe /l*vx "c:\ACM_Instlog.txt" /qn
